AMERICAN POLITICS

The Obama Phenomenon: Toward a Multiracial Democracy

NEW

Charles P Henry, Robert L Allen and Robert Chrisman

Barack Obama's campaign and electoral victory demonstrated the dynamic nature of American democracy. Beginning as a special issue of *The Black Scholar*, this probing collection illustrates the impact of "the Obama phenomenon" on the future of race relations within the United States through readings on Barack Obama's campaign as well as the idealism and pragmatism of the Obama administration. Some of the foremost scholars of African American politics and culture from an array of disciplines - including political science, theology, economics, history, journalism, sociology, cultural studies, and law - offer critical analyses of topics as diverse as Obama and the media, Obama's connection with the hip hop community, the public's perception of first lady Michele Obama, voter behaviour, and the history of racial issues in presidential campaigns since the 1960s.

The Obama Presidency: Appraisals and Prospects

Bert A Rockman, Andrew Rudalevige and Colin Campbell

NEW

In the latest volume in this classic series, Rockman, Rudalevige, and Campbell once again bring together top-notch scholars, this time to take a comprehensive look at the first two years of Barack Obama's presidency. Assessing Obama's political strategy, as well as his administration's successes and setbacks, chapter authors critically examine a presidency marked by continued partisanship, major policy battles, and continued global turmoil.

The Rise of the Tea Party: Political Discontent and Corporate Media in the Age of Obama

NEW

Anthony DiMaggio

What to make of the Tea Party? To some, it is a grassroots movement aiming to reclaim an out-of-touch government for the people. To others, it is a proto-fascist organisation of the misinformed and manipulated lower middle class. Either way, it is surely one of the most significant forms of reaction in the age of Obama.

In this definitive socio-political analysis of the Tea Party, Anthony DiMaggio examines the Tea Party phenomenon, using a vast array of primary and secondary sources as well as first-hand observation. He traces the history of the Tea Party and analyses its organisational structure, membership, ideological coherence, and relationship to the mass media. And, perhaps most importantly, he asks: is it really a movement or just a form of "manufactured dissent" engineered by capital? DiMaggio's conclusions are thoroughly documented, surprising, and bring much needed clarity to a highly controversial subject.

The Concise Princeton Encyclopedia of American Political History

NEW

Michael Kazin

With 150 accessible articles written by more than 130 leading experts, this essential reference provides authoritative introductions to some of the most important and talked-about topics in American history and politics, from the founding to today. Abridged from the acclaimed *Princeton Encyclopedia of American Political History*, this is the only single-volume encyclopedia that provides comprehensive coverage of both the traditional topics of U.S. political history and the broader forces that shape American politics - including economics, religion, social movements, race, class, and gender. Fully indexed and cross-referenced, each entry provides crucial context, expert analysis, informed perspectives, and suggestions for further reading.

Pbk 656pp 9780691152073 A\$57.95 NZ\$82 2011.08 Princeton University Press

The American Presidency: Origins and Development, 1776-2011 6ed

NEW

Sidney M Milkis

The American Presidency examines the constitutional precepts of the executive office and the social, economic, political, and international factors that have shaped it. In this updated sixth edition, Milkis and Nelson add new scholarship to every chapter, address the end of George W Bush's tenure, and - in a new chapter - explore President Obama's first two years in office. Treating each presidency succinctly, the authors focus on how individual presidents have shaped the executive office to reveal the developmental arc of the modern presidency. By emphasising patterns of presidential conduct, this award-winning book offers perspective and insight on the expansion of presidential power over the years.

ENVIRONMENTAL POLITICS

Global Environment: Institutions, Law, and Policy 3ed

Regina S Axelrod, Stacy D VanDeveer and David Leonard Downie

The new edition of this award-winning volume reflects the latest events in the climate crisis while providing balanced coverage of the key institutions, issues, laws, and policies in global environmental politics. Chapter authors provide crucial historical context while synthesising the latest scholarship for a student audience. In addition to three entirely new chapters, all of the essays are written specifically for this volume - updated with new case material, maps, figures, examples, and interpretations. Additionally, an updated chronology of global environmental policy and an updated list of acronyms aid students in critical reading, as well as review and study.

Pbk 400pp 9780872899667 A\$69 NZ\$96 2010 CQ Press

The Environmental Case: Translating Values Into Policy 3ed

Judith A Layzer

Environmental policy cannot be seen in just black and white, but instead contains many shades of gray. Environmental battles - even the most heated - are essentially conflicts among those with fundamentally different values, and how problems are framed in politics plays a central role in shaping how these values are translated into policies. Judith Layzer explores these two main themes in environmental policy making in the anticipated third edition of *The Environmental Case*. Through its 16 carefully constructed cases, the book gives readers a first-hand look at some of the most interesting and illuminating controversies in U.S. environmental policy making.

Paths to a Green World: The Political Economy of the Global Environment 2ed

Jennifer Clapp and Peter Dauvergne

The second edition of this popular text has been thoroughly revised and updated to reflect recent events, including the food crisis of 2007-2008, the financial meltdown of 2008, and the Copenhagen Climate Conference of 2009. Topics covered include the environmental implications of globalisation; wealth, poverty, and consumption; global trade; transnational corporations; and multilateral and private finance. The book maps out an original typology of four contrasting worldviews of environmental change - those of market liberals, institutionalists, bioenvironmentalists, and social greens - and uses them as a framework to examine the links between the global political economy and ecological change.

This typology provides a common language for students, instructors, and scholars to discuss the issues across the classical social science divisions.

Pbk 336pp 9780262515825 A\$37.95 NZ\$53.95 2011.03 MIT Press

Justice and the Politics of Difference

Iris Marion Young

NEW

This book challenges the prevailing philosophical reduction of social justice to distributive justice. It critically analyses basic concepts underlying most theories of justice, including impartiality, formal equality, and the unitary moral subjectivity. Starting from claims of excluded groups about decision making, cultural expression, and division of labor, Iris Young defines concepts of domination and oppression to cover issues eluding the distributive model. Democratic theorists, according to Young do not adequately address the problem of an inclusive participatory framework. By assuming a homogeneous public, they fail to consider institutional arrangements for including people not culturally identified with white European male norms of reason and respectability. Young urges that normative theory and public policy should undermine group-based oppression by affirming rather than suppressing social group difference. Basing her vision of the good society on the differentiated, culturally plural network of contemporary urban life, she argues for a principle of group representation in democratic publics and for group-differentiated policies.

Pbk 304pp 9780691152622 A\$34.95 NZ\$49.95 2011.08 Princeton University Press

Why Parties? A Second Look

John H Aldrich

Since its first appearance fifteen years ago, *Why Parties?* has become essential reading for anyone wishing to understand the nature of American political parties. In the interim, the party system has undergone some radical changes. In this landmark book, now rewritten for the new millennium, John H Aldrich goes beyond the clamor of arguments over whether American political parties are in resurgence or decline and undertakes a wholesale reexamination of the foundations of the American party system.

GOVERNMENT STUDIES

Government's Place in the Market

Eliot Spitzer

As New York State Attorney General from 1998 to 2006, Eliot Spitzer successfully pursued corporate crime, including stock price inflation, securities fraud, and predatory lending practices. Drawing on those experiences, in this book Spitzer considers when and how the government should intervene in the workings of the market. The 2009 American bank bailout, he argues, was the wrong way: it understandably turned government intervention into a flashpoint for public disgust because it socialised risk, privatised benefit, and left standing institutions too big to fail, incompetent regulators, and deficient corporate governance. That's unfortunate, because good regulatory policy, he claims, can make markets and firms work efficiently, equitably, and in service of fundamental public values.

Hbk 96pp 9780262015707 A\$21.95 NZ\$29.95 2011.04 MIT Press

The Trusted Leader: Building the Relationships that Make Government Work 2ed

Terry Newell, Grant Reeher and Peter Ronayne

NEW

In this second edition, chapter authors once again draw on their real-world experience to demonstrate the importance of values-based leadership. With new research and lessons from the first two years of the Obama administration, chapters focus on the concrete ways in which leaders build effective relationships and trust, while also improving themselves, their organisations, and those they coach. Surveying agencies both horizontally and vertically, *The Trusted Leader* also addresses how public managers can collaborate with political appointees and the legislative branch, while still engaging with citizens to create quality customer experiences.

INTELLIGENCE STUDIES

Structured Analytic Techniques for Intelligence Analysis

Richards J Heuer and Randolph H Pherson

Richards J Heuer Jr. and Randolph H Pherson turn a lifetime of expertise toward formalising, adapting, and standardising a set of 50 of the most robust analytic techniques in use in intelligence analysis today. This ready reference showcases current and cutting-edge best practices and represents a significant leap forward in depth, detail, and utility from existing handbooks. Logically organised and richly illustrated, **Structured Analytic Techniques** makes it easy to navigate, reference, and put the tools to use right away. Each technique is clearly and systematically explained: when to use, value added, the method, potential pitfalls, examples of how it can be used, its relationship to other techniques, and its origins.

Pbk 368pp 9781608710188 A\$73 NZ\$102 2010.03 CQ Press

Intelligence Analysis: A Target-Centric Approach 3ed

Robert M Clark

The new third edition has been comprehensively revised to reflect changes in the constantly shifting landscape of intelligence. With new examples throughout, **Intelligence Analysis** now includes discussions of framing effects, human terrain models, cyber collection, computer network exploitation, and more. Further, a new section on the "defense analysis challenge" clarifies the relationship between the analyst and the customer. Once again, Clark has updated the practical information and day-to-day details as only an experienced hand could, bringing essential clarity and insight to this "must-have" resource.

INTERNATIONAL RELATIONS

Introduction to International and Global Studies

Shawn Smallman and Kimberley Brown

This innovative introduction to international and global studies offers instructors in both the humanities and the social sciences an up-to-date and comprehensive approach to teaching undergraduates in this rapidly growing interdisciplinary field. Shawn Smallman and Kimberley Brown first present students with the key concepts necessary to understand the intellectual and structural underpinnings of globalisation. Thoughtfully building the presentation of core themes - including the history of globalisation; economic, political, and cultural globalisation; security; energy; and development - the authors examine such timely topics as commodity chains, labour, human rights, and multinational corporations, and provide keen insights into more familiar themes, such as food, health and disease, and the environment.

Pbk 416pp 9780807871751 A\$56.95 NZ\$79 2011.02 University of North Carolina Press

Perspectives on International Relations: Power, Institutions, and Ideas 3ed

Henry R Nau

Even in the best of times, political debate about world events is rife with polarising disagreement. In an increasingly wired world, how can we help students separate fact from opinion, to parse arguments and apply reasoned analysis? With its even-handed presentation of realism, liberalism, constructivism, and critical theory and comprehensive coverage of all of the major concepts in IR, **Perspectives on International Relations** gives students the set of analytical tools they need to become effective readers and thinkers about the world's most urgent issues.

Ethics and International Affairs: A Reader 3ed

Joel H Rosenthal and Christian Barry

The third edition of **Ethics and International Affairs** provides a fresh selection of classroom resources, ideal for courses in international relations, ethics, foreign policy, and related fields. Published with the Carnegie Council for Ethics in International Affairs, this collection contains some of the best contemporary scholarship on international ethics, written by a group of distinguished political scientists, political theorists, philosophers, applied ethicists, and economic development specialists. Each contributor explores how moral theory can inform policy choices regarding topics such as war and intervention, international organizations, human rights, and global economic justice.

Pbk 352pp 9781589012721 A\$49.95 NZ\$69 2009 Georgetown University Press

Religion and International Relations Theory

Jack Snyder

Through models that integrate religion into the study of international politics, the essays in this collection offer a guide to updating the field. Authored by leading scholars, these pieces connect religion to a rising form of populist politics in the developing world. Contributors identify religion as pervasive and distinctive, forcing a reframing of IR theory that reinterprets traditional paradigms.

Pbk 232pp 9780231153393 A\$38.95 NZ\$53.95 2011.04 Columbia University Press

Key Concepts in International Relations

Thomas Diez and David Hudson

International relations is a vibrant field of significant growth and change. This book guides students through the complexities of the major theories of international relations and the debates that surround them, the core theoretical concepts, and the key contemporary issues.

COURSE USE: This book is an essential guide for students on politics and international relations courses.

Pbk 280pp 9781412928489 A\$49.95 NZ\$69 2011.04 Sage Publications Ltd

Globalization, Institutions and Governance

James A Caporaso and Mary Anne Madeira

NEW

The study of international relations now goes well beyond state-to-state politics and even regional politics. Technological forces are working their effects on the world as a whole, bringing state and non-state actors into contact with one another. **Globalization, Institutions and Governance** provides students with a sophisticated and engaging exploration of the often differing impacts of these technological forces and the wider implications of globalisation for theories of global governance and the role of international institutions.

COURSE USE: This book is intended as core texts on advanced courses in IR, taking students beyond the basics and into the heart of the debates within each field, encouraging an independent, critical approach and signposting further avenues of research.

Pbk 200pp 9781412934930 A\$85 NZ\$117 2011.12 Sage Publications Ltd

MEDIA AND POLITICS

Soundbitten: The Perils of Media-Centered Political Activism

Sarah Sobieraj

There is an elaborate and often invisible carnival that emerges alongside presidential campaigns as innumerable activist groups attempt to press their issues into mainstream political discourse. Sarah Sobieraj's fascinating ethnographic portrait of fifty diverse organisations over the course of two campaign cycles reveals that while most activist groups equate political success with media success and channel their energies accordingly, their efforts fail to generate news coverage and come with deleterious consequences. Sobieraj shows that activists' impact on public political debates is minimal, and carefully unravels the ways in which their all-consuming media work and unrelenting public relations approach undermine their ability to communicate with pedestrians, comes at the expense of other political activities, and perhaps most perniciously, damages the groups themselves.

Pbk 234pp 9780814741375 A\$31.95 NZ\$44.95 2011.06 New York University Press

Global Politics in the Information Age

Mark J Lacy and Peter Wilkin

Global Politics in the Information Age presents a provocative and wide-ranging introduction to the notion that information technologies are creating new formations of power, control and resistance across the planet. The essays – ranging from the language used by the Bush administration to shape the war on terror, the attempts to control the circulation of informational products, the strategies of media management deployed to shape how the war in Iraq during 2003 was presented in the public sphere, through to the attempts to 'brand' economic globalisation and strategies of resistance developed by the anti-globalisation movement – unearth the new transformations that are unfolding in the twenty-first century.

Pbk 224pp 9780719067952 A\$34.95 NZ\$47.95 2011.04 Manchester University Press

POLITICAL ECONOMICS

Government and Business: American Political Economy in Comparative Perspective 3ed

Richard Lehne

NEW

In the wake of worldwide economic turmoil and efforts toward recovery, understanding the interdependence of government and business is more important than ever. In this thoroughly updated edition, Lehne takes a comparative approach, evaluating the U.S. political economy with respect to those of Great Britain, Germany, Japan, and the EU. The book provides detailed historical context for, and a conceptual understanding of, the business-government environment, and then clarifies the roles of the major actors and outlines the regulatory and policy frameworks. Along the way, Lehne probes some of the most crucial dilemmas facing government and business today.

A comprehensive glossary and chapter summaries enhance student learning.

Pbk 9781608710171 A\$63 NZ\$85 2011.10 CQ Press

Globalisation Contested: An International Political Economy of Work

Louise Amoore

Rejecting conventional explanations of globalisation as a process that automatically leads to transformations in working lives, or as a project that is strategically designed to bring about lean and flexible forms of production, this book advances an understanding of the social practices that constitute global change. Through case studies that span from the labour flexibility debates in Britain and Germany, to the strategies and tactics of corporations and workers, the author examines how globalisation is interpreted and experienced in everyday life. Contestation, she argues, is about more than just direct protests and resistances. It has become a central feature of the practices that enable or confound global restructuring.

This book offers students and scholars of international political economy, sociology and industrial relations an innovative framework for the analysis of globalisation and the restructuring of work.

Pbk 208pp 9780719085703 A\$33.95 NZ\$47.95 2011.05 Manchester University Press

POLITICAL PHILOSOPHY

Medieval Political Philosophy: A Sourcebook, 2ed

Joshua Parens and Joseph C Macfarland

Medieval Political Philosophy: A Sourcebook, edited by Ralph Lerner and Muhsin Mahdi, has been a classroom favorite since its publication in 1963. When it first appeared, it was the only anthology of medieval political philosophy to contain major texts from all three Western monotheistic traditions - Christianity, Judaism, and Islam - and that claim remains true today. This new edition of this classic text of political philosophy - revised and enlarged by Joshua Parens and Joseph C Macfarland - will make accessible to today's students the insights of these profound medieval thinkers.

Pbk 424pp 9780801476815 A\$44.95 NZ\$63 2011.05 Cornell University Press

Great Books, Bad Arguments: Republic, Leviathan, and The Communist Manifesto

W G Runciman

Plato's *Republic*, Hobbes's *Leviathan*, and Marx's *Communist Manifesto* are universally acknowledged classics of Western political thought. But how strong are the core arguments on which they base their visions of the good society that they want to bring into being? In this lively and provocative book, W G Runciman shows where and why they fail, even after due allowance has been made for the different historical contexts in which they wrote.

Hbk 138pp 9780691144764 A\$26.95 NZ\$36.95 2010 Princeton University Press

POLITICAL SCIENCE

Equality and the British Left: A Study in Progressive Thought, 1900-64

Ben Jackson

The demand for equality has been at the heart of the politics of the Left in the twentieth century, but what did theorists and politicians on the British Left mean when they said they were committed to 'equality'? How did they argue for a more egalitarian society? Which policies did they think could best advance their egalitarian ideals? *Equality and the British Left* provides the first comprehensive answers to these questions. It charts debates about equality from the progressive liberalism and socialism of the early twentieth century to the arrival of the New Left and revisionist social democracy in the 1950s.

Pbk 272pp 9780719073076 A\$34.95 NZ\$48.95 2011.10 Manchester University Press

NEW

Constitutions and Political Theory 2ed

Jan-Erik Lane

Since constitutional arrangements are what make politics work, they are a central concern of political theory. This book, now completely updated, was the first comprehensive exploration of the political theory of constitutions. Jan-Erik Lane begins by examining the origins and history of constitutionalism and answers key questions such as: What is a constitution? Why are there constitutions? From where does constitutionalism originate? How is the constitutional state related to democracy and justice? Constitutions play a major role in domestic and international politics in the early 21st century and an updated version of this classic textbook will introduce students to a number of different areas - theoretical, empirical and moral - which will aid their understanding of this important topic.

Pbk 294pp 9780719083303 A\$39.95 NZ\$55.95 2011.05 Manchester University Press

Cases in Public Policy Analysis 3ed

George M Guess and Paul G Farnham

Combining the insights of an economist and a political scientist, this new third edition of *Cases in Public Policy Analysis* offers real world cases to provide students with the institutional and political dimensions of policy problems as well as easily understood principles and methods for analysing public policies. Guess and Farnham clearly explain such basic tools as problem-identification, forecasting alternatives, cost-effectiveness analysis, and cost-benefit analysis and show how to apply these tools to specific cases.

Pbk 320pp 9781589017344 A\$42.95 NZ\$59.95 2011.05 Georgetown University Press

Introducing Comparative Politics: Concepts and Cases in Context 2ed

Carol Ann Drogus and Stephen Orvis

NEW

Teach the way you want to teach with this innovative hybrid book - fully accessible to students, easy to teach, and satisfying to professors who want to give students a real sense of the questions that drive research in the field. Organised thematically around important concepts in comparative politics - Who rules? What explains political behaviour? Where and why? - the book integrates a set of extended case studies in eleven "core" countries. Serving as consistent geographic touchstones, the cases are set in chapters where they make the most sense substantively - not separated from theory or in a separate volume - and vividly illustrate issues in cross-national context.

Making Feminist Politics: Transnational Alliances between Women and Labor

Suzanne Franzway and Mary Fonow

In this timely and detailed examination of the intersections of feminism, labour politics, and global studies, Suzanne Franzway and Mary Margaret Fonow reveal the ways in which women across the world are transforming labour unions in the contemporary era. Situating specific case studies within broad feminist topics, Franzway and Fonow concentrate on union feminists mobilising at multiple sites, issues of wages and equity, child care campaigns, work-life balance, and queer organising, demonstrating how unions around the world are broadening their focuses from contractual details to empowerment and family and feminist issues. By connecting the diversity of women's experiences around the world both inside and outside the home and highlighting the innovative ways women workers attain their common goals, *Making Feminist Politics* lays the groundwork for recognition of the total individual in the future of feminist politics within global union movements.

Pbk 200pp 9780252077920 A\$34.95 NZ\$48.95 2011.02 University of Illinois Press

Nationalism Reader

Omar Dahbour and Micheline R Ishay

The proclamation of a "New World Order," hailed at the end of the cold war, coincided with an eruption of nationalism. The withering of the bipolar balance of power has created a vacuum that has been filled by a new tide of ethnic conflict in the former Soviet Union, the Balkans, Somalia, and elsewhere. Despite general recognition of this resurgent phenomenon, there is neither widespread awareness nor expert consensus on the meaning and origins of nationalism. The **Nationalism Reader** depicts the historical evolution of nationalist thought in the words of leading political actors and thinkers.

Pbk 383pp 9781573926232 A\$47.95 NZ\$67 1995 Prometheus Books

Sovereign States or Political Communities? Civil Society and Contemporary Politics

Darrow Schechter

A philosophical approach is used to shed new light on existing interpretations of the 1989 revolutions in the East and the new social movements in the West. This book shows that there are universal forms of politics in contemporary civil societies which elude the politics of interest and identity. Sovereign states or political communities? It also explains why these forms of politics are largely obscured by existing institutions such as the market and state, and suggests how they might furnish the bases of a distinctly political form of knowledge rooted in praxis and experience instead of power and contract.

Pbk 220pp 9780719082863 A\$35.95 NZ\$49.95 2011.09 Manchester University Press

Polling and the Public: What Every Citizen Should Know 8ed

Herbert Asher

Asher's central objective - to help students become savvy consumers of polls - has only grown in importance as polling data have become more central to public and civic discourse. His trusted and brief guide offers solid grounding on polls: how the media cover them, their use in campaigns and elections, and their interpretation. Methodological aspects of polling are explained simply, in a non-technical fashion. Bringing the book fully up to date with new data and scholarship, this edition covers polls in a fragmented media environment and nontraditional approaches to polling, as well as the use of age cohorts to trace public opinion trends over time.

Pbk 275pp 9781604266061 A\$49.95 NZ\$71 2011.04 CQ Press

Urban Politics: Critical Approaches

Mark Davidson and Deborah Martin

Urban Politics is a highly-readable and challenging discussion of contemporary urban politics in a geographical context through a critical lens. A sound theoretical grounding is provided alongside an extensive thematic overview. This unique approach links classical, institutional urban politics with a broader set of urban politics and practices. The book is divided into three sections: 'the urban as political setting'; 'the urban as political medium'; and 'the urban as political community'. Case study material is integrated throughout and space is given to a discussion of the various politics residing in the city from different perspectives.

Pbk 256pp 9780857023988 A\$49.95 NZ\$71 2011.12 Sage Publications Ltd

Revolutions: A Worldwide Introduction to Political and Social Change 2ed

Stephen Sanderson

This expanded, updated edition offers a new chapter on terrorism, including jihadism. Revolutions and state breakdowns are the primary focus as Sanderson presents prominent theories and describes the process of revolutions. The book covers famous revolutions from history (France, Russia, China) and several social and political revolutions in the third world (Cuba, Nicaragua, Iran, and the Philippines). Given the frequency of revolutionary movements, a key question addressed by the book is "Why are actual revolutions so rare?"

Pbk 272pp 9781594517051 A\$45.95 NZ\$64 2010 Paradigm Publishers

Socialism Unbound: Principles, Practices, and Prospects 2ed

Stephen Eric Bronner

Published more than twenty years ago, Stephen Eric Bronner's bold defense of socialism remains one of the best texts to reframe the movement for modern audiences. Treating socialism as an ethic and reclaiming its early intellectual foundations, while acknowledging and correcting its inherent flaws, Bronner advances a more robust theory of working-class politics for the twenty-first century.

RESEARCH METHODS

Guide to Methods for Students of Political Science

Stephen Van Evera

For the last few years, Stephen Van Evera has greeted new graduate students at MIT with a commonsense introduction to qualitative methods in the social sciences. His helpful hints, always warmly received, grew from a handful of memos to an underground classic primer. That primer has now evolved into a book of how-to information about graduate study, which is essential reading for graduate students and undergraduates in political science, sociology, anthropology, economics, and history - and for their advisers.

Pbk 144pp 9780801484575 A\$17.95 NZ\$25.95 1997 Cornell University Press

The Essentials of Political Analysis 4ed

Philip H Pollock III

NEW

Political science students need to get comfortable using the tools of political analysis. For stats-phobic undergrads, the research methods course need not be nerve wracking, especially with Pollock's bestselling text to help them along the way. His brief, accessible guide walks students through the basics - measuring concepts, formulating and testing hypotheses, describing variables - while using key terms, chapter-opening objectives, 80 tables and figures, and class-tested exercises to get them using and applying their new skills.

The new fourth edition features enhanced treatment of research design and logic controlled comparison and illustrates complex relationships with more accessible examples. A completely revised rubric further helps students identify these complex relationships in their own research.

TERRORISM AND WAR

Do Democracies Win Their Wars? An International Security Reader

Michael E Brown, Owen R Cote, Sean M Lynn-Jones and Steven E Miller

NEW

In recent years, a new wave of scholarship has argued that democracies have unique advantages that enable them to compete vigorously in international politics. Challenging long-held beliefs - some of which go back to Thucydides' account of the clash between democratic Athens and authoritarian Sparta - that democracy is a liability in the harsh world of international affairs, many scholars now claim that democracies win most of their wars. This research suggests that democracies emerge victorious because they prudently choose to fight wars that they can win, and because they can marshal more resources, make better decisions, and muster public support for their military campaigns. Critics counter that democracy itself makes little difference in war and that other factors, such as overall power, determine whether a country tastes victory or defeat. In some cases, such as the Vietnam War, democracy may even have contributed to defeat.

Between Terror and Tolerance: Religious Leaders, Conflict, and Peacemaking

Timothy D Sisk

NEW

Civil war and conflict within countries is the most prevalent threat to peace and security in the opening decades of the twenty-first century. A pivotal factor in the escalation of tensions to open conflict is the role of elites in exacerbating tensions along identity lines by giving the ideological justification, moral reasoning, and call to violence. **Between Terror and Tolerance** examines the varied roles of religious leaders in societies deeply divided by ethnic, racial, or religious conflict. The chapters in this book explore cases when religious leaders have justified or catalysed violence along identity lines, and other instances when religious elites have played a critical role in easing tensions or even laying the foundation for peace and reconciliation.

Torture and State Violence in the United States: A Short Documentary History

NEW

Robert M Pallitto

The war on terror has brought to light troubling actions by the United States government that many claim amount to torture. But as this book shows, state-sanctioned violence and degrading, cruel, and unusual punishments have a long and contentious history in the nation. Organised around five broad thematic periods in American history - colonial America and the early republic; slavery and the frontier; imperialism, Jim Crow, and World Wars I and II; the Cold War, Vietnam, and police torture; and the war on terror - this annotated documentary history traces the low and high points of official attitudes toward state violence.

Understanding Conflict Resolution: War, Peace and the Global System 3ed

NEW

Peter Wallensteen

The eagerly awaited new edition of this highly-popular text continues to be the most lucid and engaging book available on conflict resolution and peace agreements. Peter Wallensteen, a renowned academic in the field, draws on recent research and examples from around the world, linking the theory of conflict resolution to real-world cases throughout the book.

NEW to the third edition:

- Expanded coverage of the making of peace agreements, including peace and justice, disarmament, and gender-peace connections
- Coverage of the actions of the Obama administration
- Explores the ongoing situations in Afghanistan, Iraq, Somalia, Sudan, the Cote D'Ivoire, Iran, Pakistan and the Arab democratic wave from a conflict resolution perspective
- Updated coverage of the continuing 'war on terror'
- Attention is given to the comparison of different outcomes, whether negotiated between parties or victory of one over the other with references to Sri Lanka, Middle East, and Liberia

COURSE USE: This book remains an essential text for all students of peace and conflict resolution in international relations, global politics and political science.
